

Player selects whether only one player will play or two players will play

*The manual player has to be player 1 by default and play against the computer*

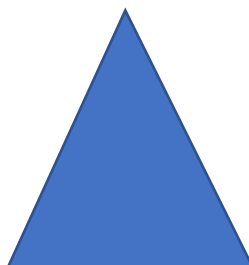

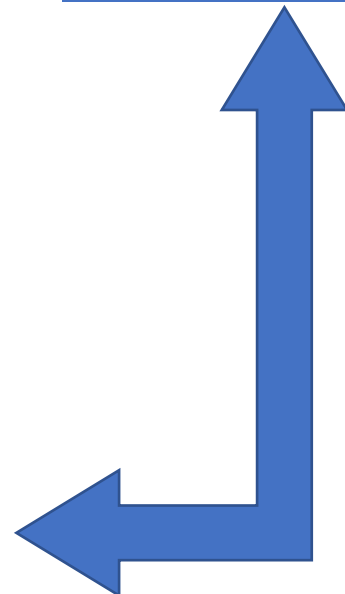

*The player will have to decide whether to play as the character 'X' or the character 'Y'*

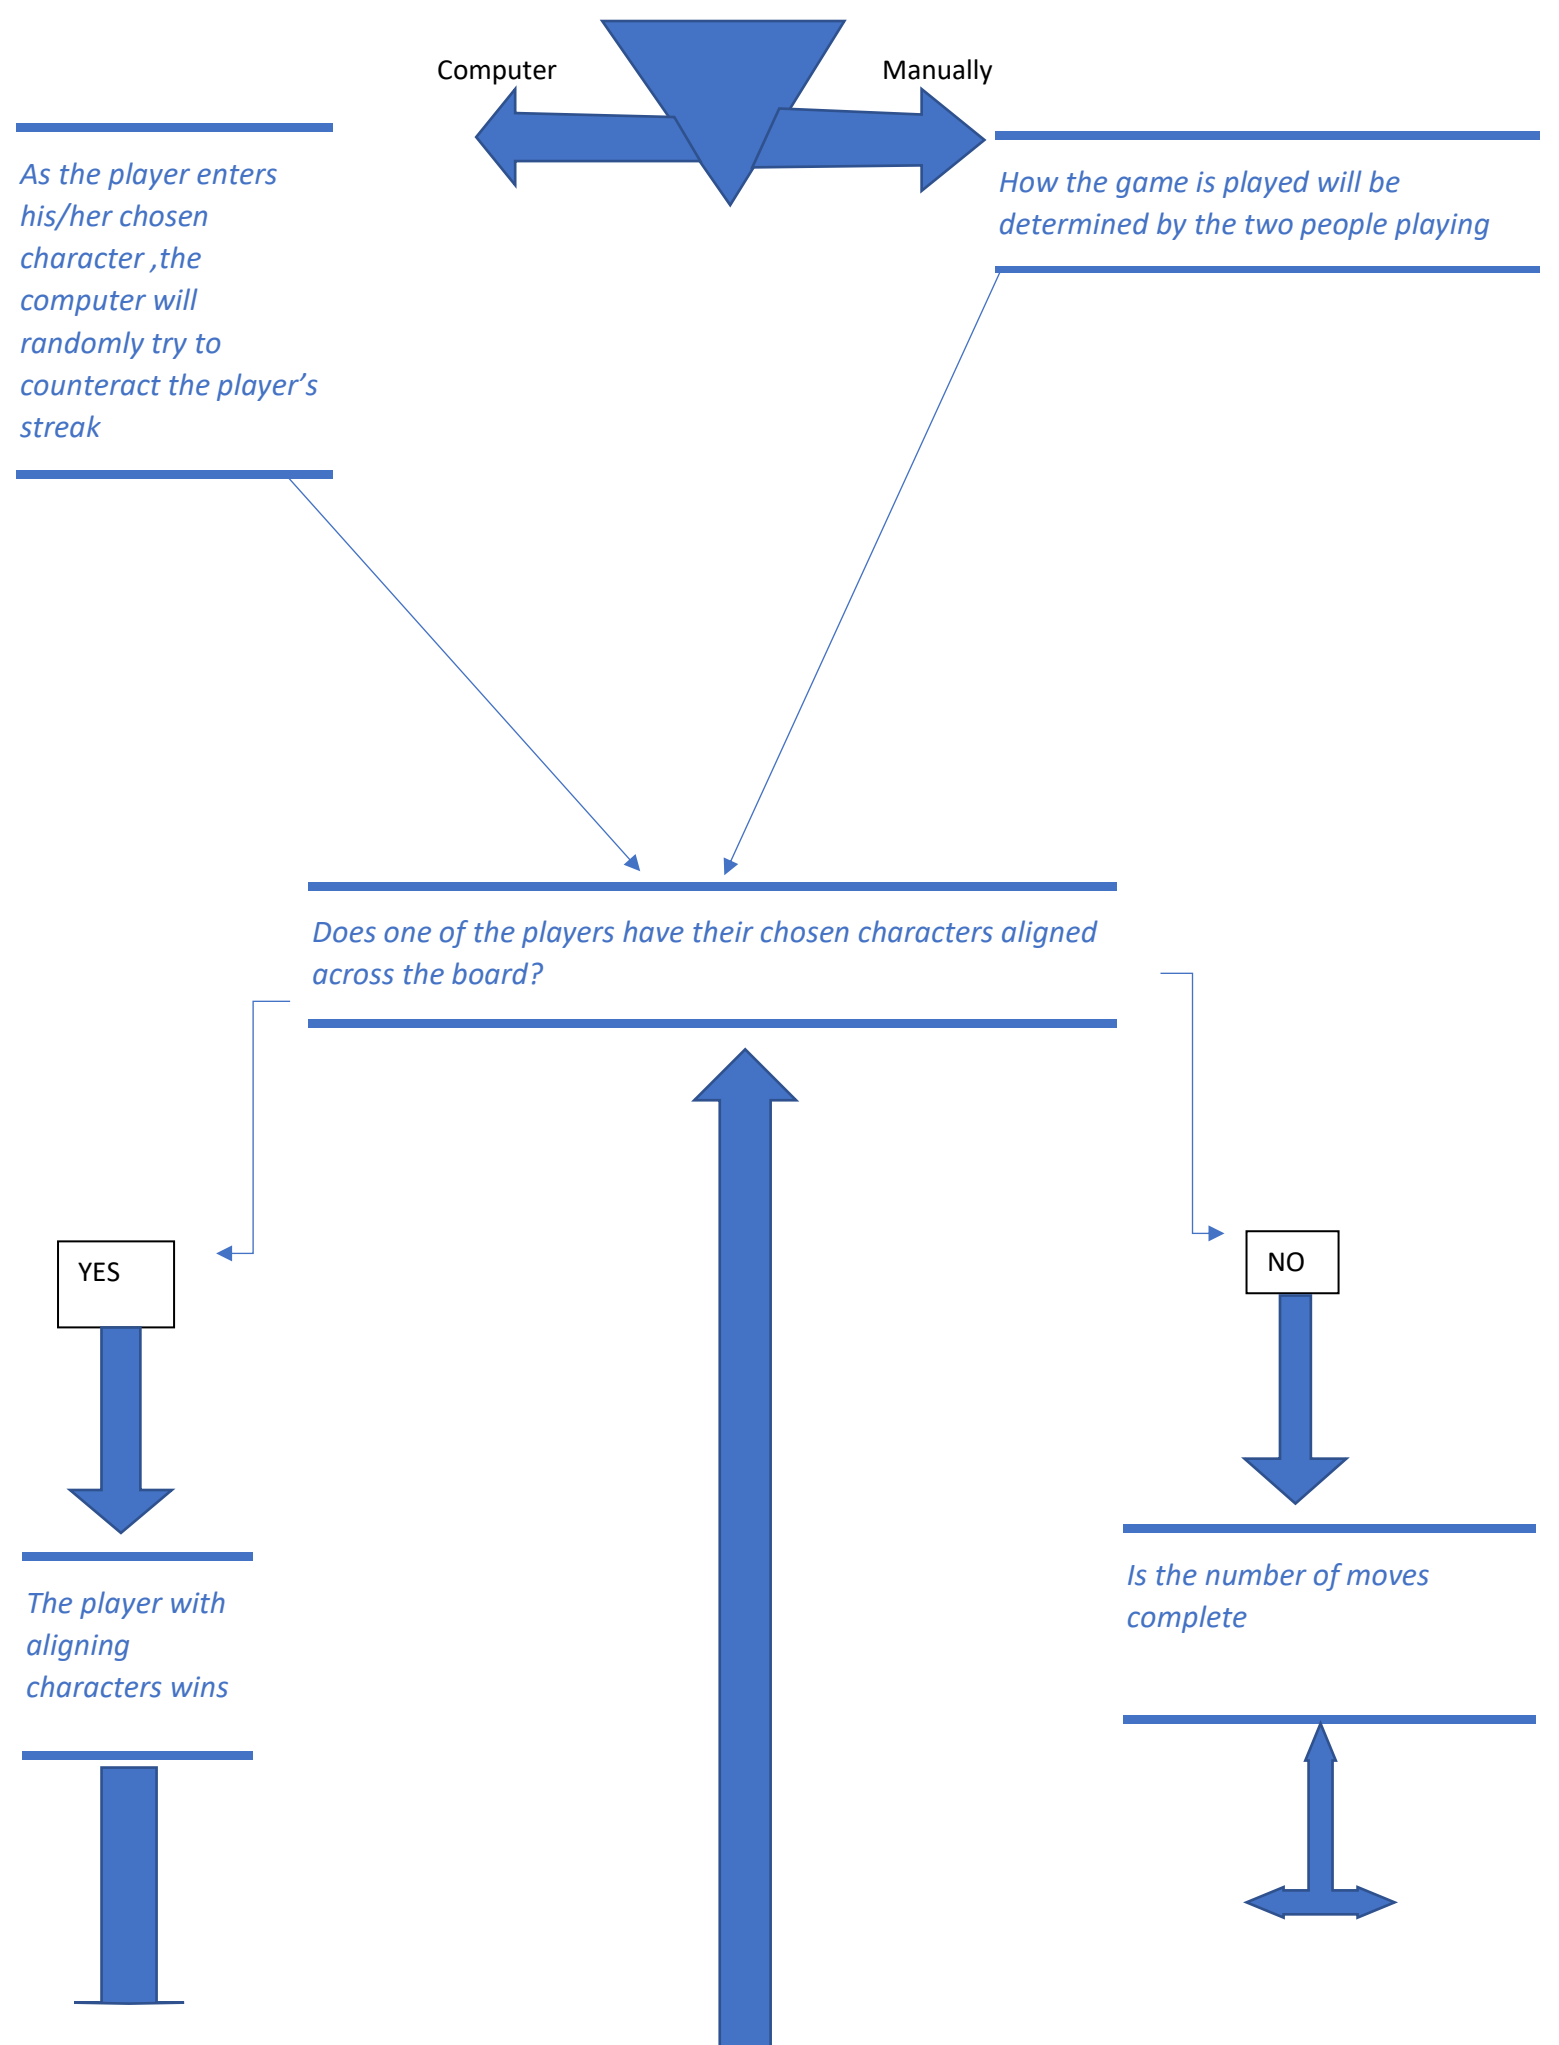

TWO PLAYER:

One person will have to choose to play as player one and the other choose to play as player two

*The two players will have to choose whether which player will play as the character 'X' or the character 'Y'.*

Game proceeds to next level and if loses with the computer the game restarts the scores
